

SCOPE OF WORK & QUOTATION

Ban Hin Bee (BHB)

Agentic Workflow Automation

Reference: AITG/QTE/2026-07-BHB001

Date: 16 July 2026

Prepared by: AITG Sdn. Bhd. (Teragrid)

Classification: Confidential

● 1. Executive Summary

Ban Hin Bee (BHB), a trusted Malaysian home appliance retailer since 1961, aims to modernise its operational workflows through the Teragrid Agentic AI Platform. This engagement covers the automation of BHB's data aggregation, email monitoring, report generation, and analytics pipeline — pulling data from SBClient, backup servers, and Google Drive into a unified Teragrid cloud environment.

The project delivers an Agentic Workflow Automation system featuring data ingestion from multiple sources, email monitoring and triage, automated report generation on a scheduled basis, a "BHB Data Analytics Agent" for daily sales intelligence, and an executive dashboard providing real-time summaries and AI-powered insights.

● 2. Scope of Work

2.1 Production Entity

This engagement is with Ban Hin Bee (BHB), operating under bhb.com.my. BHB is a Malaysian home appliance retailer with operations spanning multiple sales channels and data sources requiring centralised automation.

2.2 Data Ingestion & Aggregation

An automated data ingestion pipeline will be established to pull data from three sources into the Teragrid cloud environment:

- SBClient System — extract sales transactions, inventory levels, customer records
- Backup Server — retrieve historical data, archival records, nightly backups
- Google Drive — ingest reports, spreadsheets, and business documents

The pipeline is scheduled to run daily with automated error handling and retry logic.

2.3 Email Monitoring & Triage

An AI-powered email monitoring agent will be deployed to:

- Monitor designated BHB email inboxes for business-critical correspondence
- Categorise and triage incoming emails (orders, inquiries, support, internal)
- Flag urgent items and route to appropriate personnel
- Extract relevant data (order numbers, customer details, requests) for downstream processing
- Trigger automated actions based on email content and rules

2.4 Automated Report Generation

A scheduled report generation pipeline will produce daily, weekly, and monthly reports:

- Daily Sales Summary — revenue, units sold, top products, branch performance
- Weekly Business Review — trends, comparisons, anomalies detected
- Monthly Management Report — comprehensive performance analysis with AI commentary

Reports are auto-generated on schedule and delivered to designated recipients via email and dashboard.

2.5 Data Analytics Agent & Dashboard

The "BHB Data Analytics Agent" powered by Teragrid's Agentic AI platform provides:

- Daily sales dashboard with real-time visualisations (revenue, units, margins, trends)
- AI-powered summaries — natural language explanations of what the data means
- Comparative analytics — period-over-period, year-over-year, branch-to-branch
- Anomaly detection — alerts when metrics deviate from expected ranges
- Interactive query interface — BHB team can ask questions in plain language

2.6 Architecture — Data Flow

The target architecture follows a hub-and-spoke model where BHB's data sources feed into the Teragrid cloud via encrypted pipelines:

Figure 1 — BHB Agentic Workflow Architecture & Data Flow

Architecture Flow Reference

Step	Flow	Description
1	SBClient → Sync Gateway	Data extraction via API connector, scheduled daily
2	Backup Server → Sync Gateway	Retrieve archival and backup data, validated checksums
3	Google Drive → Sync Gateway	Monitor designated Drive folders, ingest new files
4	Sync Gateway → Encrypted Storage	Data aggregated and stored in secure cloud volume
5	Email Monitor → AI Triage	Monitor inboxes, categorise, extract entities, route
6	AI Triage → Automation Engine	Trigger workflows based on triage results
7	Encrypted Storage → Analytics Agent	"BHB Data Analytics Agent" processes sales data
8	Analytics Agent → Dashboard	Real-time visualisations, KPIs, trend lines
9	Analytics Agent → AI Summary	Natural language daily/weekly/monthly reports

10	Automation Engine → Report Generator	Scheduled PDF/email report distribution
11	All Sources → Monitoring & Alerts	Unified health view, anomaly detection, notifications

● 3. Out of Scope

3.1 Exclusions

The following items and services are explicitly excluded from this Scope of Work and Quotation:

- Modification or enhancement of BHB's existing SBClient system
- Hardware procurement or replacement (servers, workstations, networking equipment)
- Internet bandwidth or connectivity upgrades at BHB premises
- Training beyond the standard user orientation included in the handover phase
- On-site support personnel — all support is delivered remotely
- Integration with third-party systems beyond those specified in Section 2
- Custom software development beyond the Agentic AI platform described in Section 2
- Data cleansing, deduplication, or correction of existing data
- Compliance certification (e.g., ISO 27001, SOC 2) for the cloud environment
- Any services not explicitly listed in Section 2 (Scope of Work)

● 4. Proposed Project Timeline

The Proof of Concept (POC) period is 3 months from the date of payment receipt. Timeline may be extended depending on the final agreed SOW scope.

Phase	Duration	Activities	Deliverables
Phase 1: Discovery	Week 1-2	Audit SBClient, backup server, Google Drive; map data flows; define email triage rules	Architecture blueprint, data inventory, rule definitions
Phase 2: Data Pipeline	Week 3-5	Build sync gateway connectors, establish encrypted storage, deploy email monitor	Data ingestion pipeline operational, email triage active
Phase 3: Analytics & AI	Week 6-8	Deploy "BHB Data Analytics Agent", build dashboard, configure report automation	Live dashboard, active AI agent, auto-report generation
Phase 4: Testing & Handover	Week 9-12	UAT, performance tuning, team training, documentation	Go-live signoff, operations manual, user training complete

● 5. Investment

As a privileged Teragrid client, Ban Hin Bee receives a special introductory rate as follows:

Item	Details	Amount (RM)
Monthly Platform Fee	Cloud hosting (4 core, 8GB RAM, 100GB storage) Data backup + cybersecurity (WAF, malware protection) Real-time data sync pipeline Email monitoring & triage agent "BHB Data Analytics Agent" Executive dashboard with AI summaries Automated report generation & distribution	8,000
Introductory Discount	Special introductory rate for BHB	-5,000
Discounted Monthly Fee	Net amount payable monthly	3,000

Logo Licensing: The RM5,000 monthly discount is granted on the condition that BHB grants Teragrid a non-exclusive, revocable licence to use the BHB name and logo in Teragrid's marketing materials (website, case studies, pitch decks) for the duration of this agreement.

6. Payment Terms

- Payment Due:** Payment must be received within 30 days of the signed quotation date.
- Work Commencement:** Work shall only commence upon receipt of full payment. No work will be initiated before payment is cleared.
- POC Duration:** The initial POC period is 3 months. Timeline may be extended depending on agreed SOW scope.
- Monthly Billing:** The discounted monthly fee of RM 3,000 is billed monthly in advance and shall be paid within the first 7 days of each month.
- Termination:** This agreement may be terminated by either party with 30 days written notice. Pre-paid fees are non-refundable.

● 7. Acceptance

Please sign below to confirm acceptance of this Scope of Work and Quotation. Once signed and payment is received, the project timeline begins.

Terms and Conditions

1 Client Responsibilities

The Client shall provide AITG with reasonable access to the SBClient system, backup server, Google Drive, and designated email accounts necessary for the execution of this Scope of Work. The Client shall designate a technical point of contact available within 2 business days for queries. The Client shall provide approvals and feedback within 5 business days. The Client warrants that all data provided to AITG is accurate and that it has the authority to share such data.

2 Intellectual Property

All data, information, and content provided by the Client remains the sole property of the Client. AITG is granted a limited licence to process such data solely for the purposes of delivering the Services. All AI agents, platform code, algorithms, models, workflows, methodologies, dashboards, and analytical tools developed by AITG remain the exclusive intellectual property of AITG. The Client receives a non-exclusive, non-transferable right to use the platform during the term of this agreement.

3 Confidentiality & Data Protection

Both parties agree to maintain the confidentiality of all proprietary information disclosed during the course of this engagement. AITG shall process all Client data in compliance with the Personal Data Protection Act 2010 (PDPA) of Malaysia. AITG shall implement appropriate technical and organisational measures to protect Client data against unauthorised access, loss, or disclosure. This clause survives termination of this agreement for a period of 3 years.

4 Limitation of Liability

AITG's total aggregate liability arising from or related to this agreement shall not exceed the total fees paid by the Client in the preceding 3 months. Neither party shall be liable to the other for any indirect, incidental, special, consequential, or punitive damages. This limitation does not apply to: (a) gross negligence or wilful misconduct, (b) breach of confidentiality obligations, (c) infringement of intellectual property rights, or (d) statutory liabilities that cannot be limited by law.

5 Warranty

AITG warrants that the Services will be performed using commercially reasonable care and skill. The platform is provided on an "as is" and "as available" basis without warranty of any kind, express or implied, including but not limited to implied warranties of merchantability or fitness for a particular purpose. AITG does not warrant that the platform will be uninterrupted or error-free.

6 Force Majeure

Neither party shall be liable for delays or failures in performance resulting from causes beyond its reasonable control, including but not limited to natural disasters, acts of government, telecommunications or internet infrastructure outages, labour disputes, and public health emergencies. The affected party shall provide prompt written notice and shall resume performance as soon as reasonably practicable.

7 Change Orders

Any work or services not described in Section 2 of this Scope of Work shall require a signed Change Order from both parties. Change Orders will specify the additional work, adjusted fees, and revised timeline. No claim for additional compensation shall be made without a signed Change Order.

8 Governing Law & Dispute Resolution

This agreement shall be governed by and construed in accordance with the laws of Malaysia. Any dispute arising out of or in connection with this agreement shall first be referred to mediation at the Asian International Arbitration Centre (AIAC) in Kuala Lumpur. If not resolved within 30 days, the dispute may be referred to the courts of Penang, Malaysia, at AITG's election.
